Skills

- Python
- Machine Learning
- Libraries : Numpy,Pandas, Matplotlib
- Data Structures and Algorithms
- Team Leadership
- Communication

Certificates

- Machine Learning
- Data Science Course
- Artificial Intelligence course
- Data Labeling Job Simulation
- Skill India SOAR

Area of Interest

- Machine Learning
- Artificial Intelligence
- Management

Vedant Bipin Shinde

Profile

AI&Data Science Engineering student (B.E., 2027) passionate about building innovative, data-driven solutions. Skilled in analytical thinking and eager to gain hands-on experience through impactful projects and emerging technologies.

Education

Bachelor of Engineering

- Dr. D.Y. Patil Institute of Engineering, Management and Research, Akurdi
- 2023 -2027 ▫ Graduation ▫ Artificial Intelligence and Data Science
- Aggregate CGPA till 5th Semester - 8.35

10+2 Science(PCM)

- Shri Pramod Patil SPPAC Junior College, Nashik
- 2021 -2023 ▫ Intermediate ▫ Science
- 73.67%

10th Standard

- M. S. Kothari Academy and Junior College , Nashik
- 2021
- 90.81%

Experience

Machine Learning Intern R3 Systems India Pvt. Ltd.

- Worked on Machine Learning projects using Python with real-world datasets.
- Utilized Python libraries including NumPy, Pandas, and Matplotlib for data analysis and visualization.
- Gained hands-on experience in the complete Machine Learning workflow, including data collection, preprocessing, model training, and model evaluation.

Projects

AI Medicine Identifier

- Developed an AI-based medicine identification system using image analysis and symptom-based filtering.
- Implemented Machine Learning and OCR/Image Processing techniques for accurate medicine prediction.
- Designed confidence-based decision logic to deliver clear and user-friendly outputs.
- Built a web-based interface using Python to provide accessible healthcare assistance.

File Managing System

It is a Project made with the concepts of DSA to demonstrate the exact use of DSA in file system management.

Jan Sahayak App

- Developed an AI-powered civic issue reporting application for problems such as potholes, streetlights, water wastage, and garbage management.
- Implemented image-based issue detection with automatic location identification and AI-generated complaint descriptions.
- Enabled one-click complaint submission to higher authorities through a user-friendly interface.
- Integrated real-time complaint tracking and status monitoring for civilians.

Responsibility

Dr. D.Y. Patil Institute of Engineering, Management and Research
Vice President at Nevous Neuron 2025-2026

Dr. D.Y. Patil Institute of Engineering, Management and Research
Technical Secretary in Student Council 2026
